Data & BI Platforms:	Microsoft Power BI, Snowflake, SAP, Microsoft Excel
Business Analytics:	Data Modeling, ETL Workflows, Dashboard Development, KPI Reporting, BPMN, Financial Analysis

PROFESSIONAL EXPERIENCE

ExxonMobil | Data Analyst

Budapest, Hungary
Oct 2025 – May 2026

- Automated SAP and data extraction workflows, reducing manual processing time by 30% and significantly increasing data analysis processes.
- Designed and deployed interactive dashboards to track global biofuel volumes, providing downstream business stakeholders with critical weekly visibility to monitor supply performance.
- Optimized high-volume operational data extraction and transformation to streamline monthly reporting cycles.
- Collaborated with cross-functional stakeholders across operations, finance, and supply to audit, map, and re-engineer legacy reporting workflows.

Eberza Afeja Ltd | Marketing Analyst

Belgrade, Serbia
Jul 2025 – Sep 2025

- Developed weekly performance dashboards in alignment with the digital marketing team, effectively surfacing actionable trends in customer acquisition cost (CAC) and ROI.
- Centralized previously fragmented reporting by extracting, cleaning, and joining disparate lead-generation data from CRM and transactional database systems.
- Evaluated website user behavior data and translated analytical insights into targeted UI/UX recommendations that boosted user engagement by 15%.

Instrumart UZ | Sales Analyst

Tashkent, Uzbekistan
Aug 2023 – Jul 2024

- Evaluated monthly sales metrics across 30+ enterprise accounts and constructed interactive dashboards to drive data-backed quarterly sales planning.
- Synthesized complex technical product specifications to design and deliver actionable training programs for client workforces operating specialized surveying equipment.
- Modeled quarterly revenue trends across product lines in Excel, reducing stockout incidents by 20%.

EDUCATION

Óbuda University | MSc Business Informatics

Sep 2024 – Expected Jun 2026

- Focus on Financial Technologies
- “Stipendium Hungaricum” scholarship recipient

Tashkent State Technical University | BSc Surveying Engineering

Sep 2019 – Jun 2023

- “Davlat Grandi” state scholarship recipient (Ministry of Higher Education merit award)

PROJECTS

BI Analyst | Demola "Buy a Home with Open Data"

Mar 2025 – Jun 2025

- Aggregated 10+ public housing market datasets and identified statistically significant price-influencing factors via regression analysis
- Built end-to-end Power BI dashboards visualizing affordability indicators across Budapest neighborhoods

Master's Thesis | Test Data Generator for SQL and NoSQL databases

- Created Python based tool which generates synthetic test data for MySQL and MongoDB databases.
- Researched at Obuda University's Research and Innovation Center
